

Wood Cottage, Barn and Out-Buildings, Rye Mill Lane, Feering, Essex.

The Project: Using traditional construction techniques, and high quality materials and workmanship, TJ Evers completed this 3-storey, 5-bedroom dwelling, including the construction of a new oak framed shiplap clad traditional barn and outbuildings.

Within the country-style Kitchen, we installed a wood burning stove and aga. The living room has an open fireplace, oak beams and oak flooring providing the room with a classic style.

The project was completed on time and on budget and shortly after being handed-over, the property was put up for sale on the housing market.
