

# NEW SHOP 7 CAFÉ -GLEBE FARM, MERSEA

T J Evers were delighted to be tasked with the construction of a new farm shop and café at Glebe Farm, East Mersea.

Following the demolition of the existing 'pick your own' shed we constructed a new café, farm shop and office.

The structural work involved traditional trench fill strip foundations, steel frame with insulated timber frame infill with stained larch cladding to the outer walls. The roof work involved the interface of between a standard detail and a colourcoat urban steel sheet cladding systems with associated rainwater goods and aluminium composite windows and doors.

The new barns were finished with resin floors, non-slip vinyl and tiles to WC's. Internal walls and ceilings finished with a mixture of traditional plasterboard and plaster skim, timber cladding.

External works included hard landscaping with a mixture of timber deck for external seating, block paving leading up to the main door, tarmac area for the main car park and gravel area for additional car parking area

M & E works included the provision of new incoming gas, water and electric. Underfloor heating powered by a ground source heat pump was also installed.

**CLIENT** old Glebe Barns Limited
